

COMPETITION AUTHORITY OF KENYA

INFORMATION SECURITY POLICY

The Competition Authority of Kenya is committed to enhancing the welfare of the people of Kenya by promoting and protecting effective competition in markets and preventing unfair and misleading market conduct.

The Authority's overall Information Security objective is to protect itself from incidents that might have an adverse effect on the people they work with, its business operations and its professional standing and Information Security issues related to Confidentiality, Integrity and Availability. The Authority commits to conform to the requirements of **ISO/IEC 27001:2022**.

The policy shall be reviewed regularly to ensure continual improvement in Information Security Management System.
